Fourth Period Grade Seven Model B Paper 2

### II) Reading comprehension (12 M)

## Read the following letter, and then answer the questions below:

Thomas Edison was one of the most amazing inventors ever. He invented the first machines for playing music and he also invented the cinema. Edison greatly developed the light bulb as well. Thomas Edison was very clever, but he did not do well at school, so his mother taught him at home because he went to school only for three months. When he was ten, his father built a laboratory for him in the garden of his house. Thomas did many experiments **there**, but some of them were not successful.

Thomas Edison was hard working and patient, so he made more than one thousand useful inventions and got so many medals for his fantastic inventions. What a great inventor!
