How to keep fit and healthy

II.COMPREHENTION (12 MARKS)

READ THE FOLLOWING PASSAGE, THEN ANSWER THE QUESTIONS BELOW:

Oceans and seas cover more than half the Earth's surface. Many different plants and creatures live in the ocean. Coral reefs grow near the coasts in tropical oceans. **Tiny** creatures build the coral reefs in beautiful shapes and colors. Many different kinds of fish and other ocean creatures make their homes in the reefs. There are high mountains and deep valleys under the ocean .The largest range of mountains in the world is under Atlantic Ocean. The deepest part of the ocean is the Mariana Trench in the Pacific Ocean. It is eleven kilometers deep.

Jellyfish float gently near the surface of the ocean. Rays and other flat fish live on the bottom of the ocean. **They** swim lazily along the ocean bed. Whales and dolphins must come to the surface of the ocean to breathe. The blue whale can stay under water for fifty minutes. It is the largest creature on earth, much larger than any of the dinosaurs.
