### Comprehension (15 m)

**Read the following passage , then answer the questions below :**

Along time ago, travelling was very hard and dangerous. People began to ride their tame animals. They used to travel by horse, by camel, by donkey or by elephant . n the Arab world, people call the camel "The ship of the desert" . It took weeks and months for people from place to place .

These days we use cars, trains, ships and planes. They are much faster than horses, camels donkeys and elephants . They save a lot of time but sometimes they are dangerous .

In the near future people will travel into space by spaceships. They will save a lot of time because spaceships are the fastest of all .
