

Comprehension

Read the following passage then answer the questions below: Prepared by: Mrs.Aisha

Buanshi

Last week, we learned about planting trees. Trees need water, sunshine and good soil to grow tall and strong. We need trees for food and shade from the sun. Animals and birds need trees for their home. We shouldn't cut down trees because they are important to keep the Earth a healthy place . So, today we are going to the school garden to plant some flowers. We are very excited.

Answer the following questions:

1) Why do we need trees ?

We need

2) What do trees need?

Trees need

Tick (√) or (x) :

1- Animals need trees for their home. ()
